One of the newer figures in the osu!mania Philippines Community, rune_ined took the opportunity to create the mascot by volunteering herself. (Or we should say, pabor kasi GF nung isang admin lol)

The osu!mania PH Team gave her free reign in the design, but just told her to base everything from the bio we provided.

She does art streams on her Twitch channel (https://www.twitch.tv/rune_ined) every now and then, so feel free to drop by.

When asked if she has anything to say for this design book, she just gave us a line:

“She’s my cringefail daughter”

Yep, that’s all.

Favorites

Krysta for some reason likes to play mania very late at night (kasi overworked STEM student siya). She is extremely inclined to the Sciences and is very nerdy. She secretly works out to keep in shape, and is semi-decent at playing sports. In addition, she hates people who easily gives up and leaves companions behind. She has the tendency to take care of her belongings like they are her children.

Her main passion is to spread the word about the things she likes — from tutoring people in Math, to mentoring newbies in osu!mania. Speaking of the latter, she doesn't really have any preferred keymodes. Instead, she just plays charts based on her general mood for the day.

She has a mischievous side as well. She likes to investigate rumors and such. Heck, she thrives off looking into some of those lengthy Google Docs that come out every now and then. This, however, is a well-kept secret. She doesn't really like to make conclusions off them and just wants to see how things play out.

Fun Fact: While Krysta was in development, we gave her the codename "Marites". Guess that's the reason why the second paragraph in "favorites" is a thing. Also, the STEM student stereotype for mania players a thing, so she's a STEM student as well.
